Sustainability

The wider the range of possibilities we offer children, the more intense will be their motivations and the richer their experiences. We must widen the range of topics and goals, the types of situations we offer and their degree of structure, the kinds and combinations of resources and materials, and the possible interactions with things, peers, and adults.

In the final analysis it is not what you do for your children but what you have taught them to do for themselves that will make them successful human beings.

Our task, regarding creativity, is to help children climb their own mountains, as high as possible. No one can do more.

~Loris Malaguzzi

Along with the many resource books available in our library, we also have a large selection of articles that are topic specific. These range from Anxiety-Music and Nutrition-Z. These articles are available for photocopying here at the CCRR for your own personal use. (\$0.05 per copy).

Come and browse through our back logged issues of Interaction (CCCF), Early Childhood Educators Journal, Parent Magazine, as well as other informative publications from other resources.

Also included in our resource library, is selection of videos. This includes the Good Beginnings Family Daycare series as well as topic specific videos around health, safety and nutrition.

The CCRR library also includes some translated materials for families and child care providers. These are available in Chinese, Farsi, French, Hindi, Japanese, Italian, Khumer, Korean, Serbo-Croatian, Polish, Somali and Vietnamese.
